

Big Data Analytics

Start your big data journey without the upfront investment

Big data projects are costly, in both time and money. Wouldn't it be great if you could jump start your big data project without that cost obstacle?

What is Big Data?

Capax Global helps customers ramp up their Big Data projects quickly. Using Azure and bundled solutions from Microsoft, Cloudera, and Hortonworks, we can have you implementing business solutions in just a few days.

The Value

- Better analytics
- Valuable business insights
- Faster time-to-market

The Proof

- Provide actionable business insights in minutes

The Outcomes

- Predictive analytics
- Self-service capabilities
- Confidence in your system

What our clients say

"We needed a way to display and query customer data from five different systems in real-time, at the time of customer-interaction. Capax implemented a great solution and created templates so additional use cases could be created without expensive consulting services."
