

Microsoft 365

A secure solution to empower employees

Upgrading the employee desktop infrastructure can be too expensive and take too long. Simplifying desktop infrastructure via cloud services helps the business integrate old technology with new cloud services while continuing to run your business.

What is Microsoft 365?

At Capax Global, we understand that modern workplace solution can be daunting. We can help you integrate Office 365, Enterprise Mobility and Security and Windows 10 into your business while offering you ongoing support and managed care.

The Value

- Easy to deploy and manage
- Intelligent security, built-in
- Access management
- Proactive insights

The Proof

- Save time and money using self-service deployment
- Provide employees with the latest Office apps
- Configure policy options

The Outcomes

- Transition to cloud-based management at your pace
- Make any new PC enterprise-ready

What our clients say

"TD Bank Group's digital and data-driven transformation allows more meaningful and personal engagements with customers, fuels application development, and informs branch and store service delivery by gathering insights to serve customers better the way they want to be served, with precision and close attention to their specific needs."

—Financial Services
